Programa EU4Health Work Programme 2025 Convocatorias

EU4Health – the Programme

EU4Health is a clear message that public health is a priority for Europe and it is the instrument to pave the way to a European Health Union

- **RESPONSE TO COVID-19** – supporting the fight against cross-border health threats and boosting the preparedness and capability to respond effectively to future health crises, including through the European Health Emergency preparedness and Response Authority (HERA)
- **AMBITIOUS VISION** – will go beyond crisis response to support and complement national health policies for strengthening and modernising health systems, reducing inequalities and overcome shared challenges
- **THE LARGEST EVER EU INVESTMENT IN HEALTH** – over €5.3 bn (current prices) invested in health during the next 7 years (2021-27)

Commission

European
Commission

EU4Health programme for a healthier and safer Union

#EUBudget #EU4Health

EU4Health is an ambitious and dedicated funding programme for 2021-2027 that will ensure a high level of human health protection and pave the way to the Health Union. Its activities are in keeping with the One Health approach bringing together human and animal health and the environment.

EU4Health will invest **€5.3 billion** with the following main objectives:

EU4Health – a vision for a healthier European Union

EU4Health is the Programme for the Union's Action in the Field of Health under the MFF 2021-27

Regulation (EU) 2021/522 – EU4Health Programme

EU4Health is a Union funding programme

- Response to the Covid-19 crisis
- Aims to strengthen the EU's health systems, prepare them for future crises, and respond to health challenges
- Budget: EUR 4.6 billion 2021-2027

EU4Health – 4 General objectives

EU4Health is a clear message that public health is a priority for Europe: it is the response to COVID-19 crisis and it is the instrument to pave the way towards a European Health Union

IMPROVE & FOSTER HEALTH

Improve & foster health in the Union to reduce the burden of communicable and non-communicable diseases, by:

- supporting health promotion and disease prevention,
- reducing health inequalities,
- fostering healthy lifestyles
- promoting access to healthcare

PROTECT PEOPLE

Protect people in the Union from serious cross-border threats to health and strengthening the responsiveness of health systems and coordination among the MS in order to cope with serious cross-border threats to health

ACCESS TO MEDICINAL PRODUCTS & MEDICAL DEVICES

Improve the availability, accessibility and affordability of medicinal products and medical devices, and crisis-relevant products in the Union, and supporting innovation regarding such products

STRENGTHEN HEALTH SYSTEMS

Strengthen the national health systems by improving their resilience and resource efficiency through:

- supporting integrated and coordinated work between MS;
- promoting the implementation of best practices & promoting data sharing;
- reinforcing the healthcare workforce;
- tackling the implications of demographic challenges;
- advancing digital transformation

The EU4Health annual work programmes

FIVE ANNUAL WORK PROGRAMMES HAVE BEEN ADOPTED (2021, 2022, 2023, 2024 AND 2025), WHICH IMPLEMENT UNION'S LEGISLATIVE AND NON-LEGISLATIVE HEALTH INITIATIVES SUCH AS:

- Europe's Beating Cancer Plan
- Mental health
- EU's resilience to cross-border threats to health
- European Reference Networks
- European Health Data Space
- Union's health legislation (e.g. medical devices, health technology assessment, etc)
- Global Health
- Critical medicines
- Cardiovascular

THE ANNUAL WORK PROGRAMMES INCLUDE:

- Actions (policy context, objectives, scope, activities, expected results and impact)
- Procedure type
- Indicative timetable
- Indicative budget allocation
- Details for funds applications – type of targeted applicants

EU4Health work programmes – strands

POSSIBLE ELIGIBLE ACTIONS

CANCER  AND THE NEW PRIORITIES 2025-2029 ON CARDIOVASCULAR AND OTHER NON-COMMUNICABLE DISEASES

CRISIS PREPAREDNESS

- Protect citizens from serious cross-border health threats
- Strengthen health systems response
- Enhance coordination among Member States to cope with serious cross-border threats to health

HEALTH PROMOTION & DISEASE PREVENTION

- Improve and foster health in the EU
- Reduce the burden of communicable and non-communicable diseases
- Support health promotion and disease prevention
- Reduce health inequalities
- Foster healthy lifestyles

HEALTH SYSTEMS & HEALTHCARE WORKFORCE

- Improve availability, accessibility and affordability of medicinal products and medical devices, support their innovation
- Strengthen resilience and sustainability of health systems
- Reinforce healthcare workforce

DIGITAL TRANSFORMATION

- Advance digital transformation of health systems
- Strengthen primary & secondary use of health data

Grants

Grants are financial contributions from the European Union budget awarded by way of a donation to a third-party (= the beneficiary) engaged in activities that serve Union policies.

Grants fall into two broad categories:

- **grants for actions**, intended to help achieving objectives that are part of a Union policy;
- **operating grants**, that finance the functioning of a body whose objectives are part of a Union policy. These are based on a work programme.

The successful applicant for a grant becomes the "**beneficiary**". We can have **mono-beneficiary** and **multi-beneficiary**.

A grant is a donation to finance

EU Health Policy Platform (EUHPP)

<https://webgate.ec.europa.eu/hpf/>

The EU Health Policy Platform Web Platform

What is it?

The HPP is a **collaborative online space**

Why was it created?

To provide a **framework for targeted discussions** between EC and health related interest groups/organisation

How can you get involved?

- ✓ **Register** in the Platform with your EU login & create an attractive profile to connect with other health stakeholders
- ✓ **Participate actively in live webinars** posted in the Agora network and open to registered users
- ✓ **Get informed with the Latest Updates newsletter**, sent on Tuesdays and Fridays to all users
- ✓ **Join our trainings** if you wish to make full use of the Platform to increase the impact of your publications
- ✓ **Meet the team** in the Platform annual meeting and pass by the Commission and Chafea stand at EU level health related events
- ✓ **Contact the HPP team** at SANTE-HPP@ec.europa.eu

Health Technology Assessment (HTA)

Health technology is a crucial step between scientific knowledge, advancing healthcare and prevention. Yet it is important to evaluate how good this technology is at delivering what is promised. In this respect, a health technology assessment (HTA) evaluates clinical efficacy and the efficiency of health procedures and pharmaceuticals, comparing them to the best existing alternatives and considering patient preferences. In recent years a number of EU countries have introduced health technology assessments. Examples of health technologies include medicinal products, medical equipment, vaccines, diagnostic and treatment methods, rehabilitation, and prevention methods developed to solve health problems and improve quality of life.

2019

Cross-border healthcare

Easier access to healthcare for EU citizens anywhere in the EU
Cross-border healthcare enables patients to seek medical services across the EU and helps citizens find relevant information more easily in other EU countries. Numerous EU projects are making sure that the concept of seamless cross-border healthcare provision continues to gain strength.
